SWAT THE FEMALE MOSQUITO

In the Case of Those Insects, Kipling Was Undoubtedly Right in His Assertion.

Contrary to popular belief, the mosquito lays only 50 or 100 eggs at a time, and naturally would suppose it laid about 1,000,000. The larval stage lasts seven to fourteen days. If you have a barrelful of mosquitoes under your eaves, have a look at them. It is easier to spot the maternal kind than others. The harmless wrigglers hang with their heads down, but the maternal mosquito lies with its body parallel to the surface of the water. If a fellow mosquito bites you look at its back, preferably with a microscope. If it has the figure of a lyre on its back it is bad medicine. If it is all one color it won't hurt you.

Only the female mosquito will bite, according to a writer in the Saturday Evening Post. The males die in the fall, the females hibernating and then living one or two months. The male lives but a few days. No doubt you believe that mosquitoes live on blood alone, though you may have wondered how they get along in the remote wilderness where there seems to be no blood. In the instance, in the subarctic and arctic country. The truth is that the mosquito also lives on the juice of plants. They will bite almost any sort of animal, will bite reptiles and even caterpillars. Some mosquitoes can bite through a leather moccasin. Any of them can bite through a human hide.

SOFT WOOD MADE BEAUTIFUL

Proper Application of Finishing Methods Gives All the Effects of More Costly Material.

Beautiful wood floors, approximating in effect and finish the oak and maple floors found in the best type of homes, can be developed, with the aid of proper finishing methods and materials, in such woods as pine, fir, and cypress, says a bulletin of a large American company. These so-called "soft" woods are very durable and possess not a little natural beauty of grain.

Hardwood effects are secured on soft woods by staining with an oil wood stain, consisting of a permanent color pigment in an oil vehicle. These stains are particularly adapted to use on the soft woods. The effect is completed by applying a thin coat of shellac and finishing with two coats of prepared wax or floor varnish.

The first step toward obtaining the desired finish is to sandpaper the wood smoothly. The stain should then be applied freely with a brush, and, after being allowed to stand for about five or ten minutes, buffed off with a cloth. When the stain has dried for 24 hours the shellac and wax or varnish may be applied as described.

A deeper effect than that procured by the method outlined may be obtained by the use of a varnish stain over the oil wood stain. Both should, of course, correspond in color. Often it is difficult to determine upon the best finish for a floor in the absence of expert advice.

Aviators' Dangers.

Air service doctors have discovered that airmen who have been experts will, on occasion and for a period, make all manner of mistakes in landing.

With a smooth lawn below them they will do a "poached egg" and crash the machine on its tail or will take the ground before they mean to.

These accidents are attributed to a particular sort of weariness of eye muscles as well as eye nerves. The eye fails to convey to the brain a proper eye picture of the ground or other object.

The eye fails very much as the muscles of an untrained athlete fail. Many exercises for the eye have been designed which will remedy this defect.

Character of Future Naval Attack.

Rear Admiral W. F. Fullin summarizes the method of naval attack of the future as: Plunging fire from long-range guns; attack by bombing from aircraft; attack by submarine mines; attack by torpedoes fired either from submarines or destroyers or by torpedo planes. He believes that aircraft will become increasingly a determining factor in ranging and he believes that sea power or fighting power will be largely dependent upon control of the air and that the fleet which secures this control must win, other things being approximately equal.—Scientific American.

Germany's Air-Post Plans.

Negotiations are being carried on between German and foreign firms with the object of securing Germany's participation in an international air post service. Regular air-mails between Berlin and Copenhagen are expected to begin shortly, and arrangements are being made with the other Scandinavian countries. An important part of the service will be the conveyance of "airgrams" to relieve the telegraphic service. The shortage of gasoline in Germany at present is restricting the use of aircraft for mail purposes.—Scientific American.

That War Spirit.

Mrs. Gotham: "I'd like to go to the theater or opera tonight, dear."

Mr. Gotham: "All right. What would you like to see?"

"Oh, something with some fighting in it, Henry."

"But you know they've stopped the production of those German operas, dear."

MARINES WIN IN A DOUBLE VICTORY

The Marine Club defeated the Belle Vernon Panthers by the one-sided score of 78-9 at the High School gymnasium Saturday night. The Marines took the lead from the start and were never headed. The winners played their best form of the season and it was impossible to stop them. Shephard, I. Morgan and Mahoney starred for the locals, and Miller and Anderson for the visitors. Line-up: Marines—78 Belle Vernon—9
O. Morgan F Anderson
Shephard F Schum
I. Morgan C Miller
Hill G McKinley
Monack G Attleberger

Substitutes—Mahoney for Hill, Field Goals—O. Morgan 2, Shephard 15, I. Morgan 12, Hill Mahoney 9, Anderson 2, Miller 2, Fouts—O. Morgan 0 out of 3, Shephard 0 out of 1, Mahoney 0 out of 1, Miller 1 out of 11. Referee—Mahoney.

The Sub-Marines played a fine game and defeated the Lock 4 Sterlings. The Subs were in the lead most of the time but the game was fast throughout. Mahoney and Filipietz played best for the locals and Bruce and Oates were the best men of the Sterlings. Th line-up:

4 Sub-Marines—22 Sterlings—11
Rosenbloom F Bruce
Filipietz F Oates
Collins C Biesenkamp
Ackison G Gee
Mahoney G Paterlini
Field goals—Filipietz 3, Mahoney 6, Bruce 2, Oats 2, Fouts—Oates 2 out of 4, Biesenkamp 1 out of 1, Rosenbloom 4 out of 8. Referee—O. Morgan.

TIGERS TOO MUCH FOR THE PANTHERS

The Charleroi Tigers defeated the Charleroi Panthers by a large score Saturday morning last, the Tigers piling up 20 while the Panthers could only accumulate 3. The line-up:

Tigers—20 Panthers—3
Mogan F Berryman
Michener F Cheney
Ferguson C Steinbaugh
Bowler G Atkins
Filipietz G Showers

Substitutes—Owens for Mogan, Majors for Steinbaugh. Referee—Watts of the high school.

LAYMEN OCCUPY THE PULPIT SUNDAY EVENING

At the First Presbyterian church, Sunday evening, the services were of a somewhat unusual character, in that laymen occupied the pulpit. Messrs. Showers, Strodes and Repman discussed the topic, "What the Church Needs," and while all presented different phases, the talks were of a very interesting nature, and gave members of the congregation plenty of food for thought.

Egyptian Barber.

The ordinary village barber of Egypt bears a certain resemblance, in so far as his profession goes to the barber-surgeon of ancient times in England. He is authorized by law, after having passed an examination, to perform vaccination, application of leeches, cupping, simple dressings, but is forbidden to order or prescribe medicines.

Sophistication.

Bernice had some of her little friends in for luncheon the other day and among other things she had olives. She offered them to Effie, who said she did not like them. Whereupon Bernice retorted in a superior fashion: "Oh, I didn't like 'em myself at first, but you must accumulate a taste for them."

Christian Church History.

With much diversity of opinion on minor points, there is a general agreement in dividing the history of the church into three great periods: the first, from the birth of Christ to the time of Constantine; the second, from that epoch to the reformation; and third, from the reformation to the present time.

ANNOUNCEMENT

Beginning Monday, March 1st and continuing the entire week, our annual exhibit of Marble and Granite Memorials will be held in our newly remodeled show rooms and we can truthfully announce that our display this year will be the best ever shown in this section.

A glance at our well lighted show room will convince the most critical observer that our stock of Memorials comprises some of the most exclusive and richest designs to be found.

We extend to the public and particularly those interested in MEMORIAL ART, a special invitation to inspect our exhibit. Open from 8 a. m. to 9 p. m.

ISAAC & SPENCE
Corner Main and Cemetery Street
Monongahela, Pa.

227-13.

ASK THAT OPTION BE SET ASIDE

Charges of fraud in connection with an option for coal land are made in a bill of complaint filed by John L. Bigler and Milton Bigler, of West Bethlehem township, executors of the estate of David Bigler, deceased, against D. M. Garrison and Walter R. Hawkins, both of Waynesburg, and Reid Kennedy and Robert M. Steffer of Allegheny county. The plaintiffs ask the court to restrain the defendants from assigning or transferring their interest in this option to anyone and finally, to declare the option null and void.

The property involved is 120 acres of the Pittsburgh vein of coal in West Bethlehem township, which was optioned to D. M. Garrison on the 20th of April 1917, which the plaintiffs in the above case say was to extend to the 5th of July, 1917. The price was \$350 per acre, and the option provided that one-third of the purchase price was to be paid within 60 days. Assignment and re-assignments of the option followed, and it is alleged that the paper was finally made a matter of record on the 26th of January 1920.

Rumor has reached us of unrest and impatience among our trade school pupils, who are eager to be sharing the high wages now being paid to labor. They are in a hurry, one might say, to exchange the holiday of youth for the pay day of adolescence.—Boston Transcript.

The Pocket handkerchief.

The pocket handkerchief was first known as "kerchief"—couvre-chef—a covering for the head; then it became handkerchief, a covering for the head carried in the hand, and at last pocket handkerchief, a covering for the head held in the hand and kept in the pocket.

CHIROPRACTIC

is a scientific method of removing the cause of disease, acute or chronic, without the aid of drugs, surgery or appliances. Pressure on a nerve at the opening where it leaves the spine will cause disease.

THE CHIROPRACTOR adjusts the displaced Vertebrae, thus relieving pressure, and enables nature to restore normal condition.

FIRST TO TEACH PHILOSOPHY

Honor is Accorded Thales, Who Established a School Which Exerted Wide Influence.

The first school of philosophy was established in Miletus (Asia Minor) by Thales, one of the wise men, and was quite a remarkable institution, exerting an influence for more than a century.

Thales seems to have given himself more entirely to this school than to any of his other undertakings. There is a legend that he never married, and when his mother pressed him to do so he said: "It is not yet time." After his youth was passed she again urged him to marry and he said: "It is no longer time."

Many of the subjects taught in his school, such as astronomy, geometry and geography, show the influence of Egypt and Phoenicia; but the philosophy was probably an original product, for while some of the sciences were somewhat advanced, the philosophy was apparently a first attempt at an explanation of the origin of the world. It originated a movement which culminated more than a century later in the idealism of Plato.

We may perhaps understand something of the attitude of the common people toward Thales' school of philosophy from the story of the old woman who laughed when the master fell backward into a ditch after gazing too long at the stars. The old woman not only laughed, but she is said to have called after him: "If you cannot see what is under your feet, how can you understand what is in heaven?"

The geography and astronomy taught in this school were very primitive: The earth was flat, the sun circled around it horizontally, being concealed at night by high hills. One writer of the time describes the world in the following poetical way: "God makes a mantle, large and fair and embroiders on it earth and ocean and ocean's dwellings."

DIFFERENT KINDS OF SPEED

Aviator and Motorist Didn't Have the Same Kind of Comparison as They Traveled.

The motorist was taking an aviator friend, recently returned from the army air service, out for a spin. Thinking of the 125-mile-an-hour speed to which the aviator was accustomed, the motorist felt that it was incumbent upon him to "let 'er out." His friend, he felt, would feel badly ambling along at the land rate folks are used to traveling. So he cut loose and the car was zipping along at something like 50 miles an hour.

Then the motorist felt a hand laid upon his arm. "Going pretty fast, aren't you?" remarked the aviator, a trifle uneasily. After the motorist had slowed down he asked: "Why, I thought the best speed I could make would seem slow to you. How is it that it appeared so fast?"

"You see, in the air, even at our greatest speed, we seem more or less stationary unless we look below us and see objects flitting past," explained the aviator. "You know speed can only be reckoned visually—by things one is leaving behind. Now, the gait you were moving a few minutes ago looked mighty fast, uncomfortably fast I might say, to me. I kept noticing things we were leaving behind."

"Well, I'll be darned," said the motorist. "I never thought of it in that way before."

And the hand of the speed clock jiggled back to the 25-mile mark.—Kansas City Star.

If It Only Were!

The late Ella Wheeler Wilcox, though the most popular poet of modern times, steadfastly refused to enter New York society. The most exclusive Fifth Avenue portals were open to her, but Mrs. Wilcox passed them indifferently by.

A New York magazine editor once sought her out with an invitation to a Fifth Avenue dinner party.

"I'm sorry," she said, "but I can't go."

"Why must I?" said the poet.

"Our host," the editor answered, "is rich—rich—a multimillionaire. You must accept."

"Well, I would," said Mrs. Wilcox, with a smile. "If it were catching!"

He Was No Molluscoid

A neighbor's son was entertaining about twenty of his little boy and girl friends at his birthday party. The children were supposed to return to their respective homes at eight o'clock in the evening; however, they were having such a good time when the going home hour arrived, its passing still found them hard at it. The mother of the little host suggested to him the advisability of intimating to his little friends the lateness of the hour. This is how he did it:

"Say, it's nine o'clock; I'm getting sleepy, and you kids have got to go home!"

"What's that? Go home this early?" said one of his indignant little guests. "I thought this was to be an all-night affair!"

Some Did.

"So you've been in the army, eh?" asked the old gentleman kindly. "And tell me, did you do much shooting while you were over there?"

"I won \$80 the first day I landed in France," answered the gambler, proudly.

MORE OR LESS A MYSTERY

Few Seem to Know the Real Facts Concerning the So-Called Monkey of Mons.

Are you acquainted with the monkey of Mons?

An army officer brought home from Belgium a replica—a tiny silver figure with one clawish hand posed reflectively against its chin and with a look of introspection in its deep-set eyes. In showing it to a friend he mentioned that, like a number of officers who had been to Mons, he carried the thing as a mascot. The friend told a woman about it, and she, being unacquainted with the monkey of Mons, asked a soldier who had been there.

"Never heard of it, but you can't judge by me, as I was only in Mons a couple of days—got great coal mines there, though."

Another soldier who had been to Mons long enough to go sight-seeing was impressed mainly by the cathedral of St. Waldrup—"built in the fifteenth and sixteenth centuries; Gothic architecture, and—the monkey must have been there, of course, but—"

Then the woman extended her inquiry to a private who had huddled around Mons for two hours while waiting to get away.

"Sure I saw it! Bronze statue in a street—or maybe it was one of those gargoyles things on the church wall, but, anyhow, I saw it—at least it looked like a monkey, though I wouldn't be willing to swear to it."

Which is the why of this cry:

"Are you acquainted with the monkey of Mons?"—Washington Star

TO PRESERVE OLD LANDMARK

Creation of National Monument Area Assures Security to Posterity of Famous Mullan Tree.

The Mullan tree, landmark of the old Mullan trail, the first highway connecting Montana and Idaho with the coast, will be preserved to posterity through the creation of a national monument area by the president.

On July 4, 1861, Capt. John Mullan, leader of the party having charge of the survey and construction of the Mullan trail from Walla Walla, Wash., to Fort Benton, Mont., closed his work at the connecting point of the roads from the east and west, at the head of the Fourth of July canon, between Wallace, Idaho, and Coeur d'Alene, Idaho. There he marked appropriately a huge white-pine tree, which since that time has been known as the Mullan tree. Tourists seeking souvenirs of their jaunt along the Yellowstone trail have damaged the ancient tree so much that forest service officers have found it necessary to take steps to protect it, and, to accomplish this, have submitted a petition proposing that a national monument area be created, which has been approved.

When Paint Causes Wood to Warp.
Coatings of equal moisture resistance should be applied to all surfaces of a wood product which would give dissatisfaction if it were to warp in service. Tests at the forest products laboratory, Madison, have shown that even when wood is properly kiln dried, no coating entirely prevents it from picking up or giving off moisture and shrinking under the influence of varying atmospheric conditions.

Varnish, shellac, and other moisture-resistant finishes merely decrease the rate at which the moisture changes in wood occur. The higher the grade and the more coats applied, the slower will be the moisture changes.

Unequal coatings on opposite surfaces of a wooden article cause unequal rates of change in moisture content and hence unequal shrinkage on the two sides of the piece. The result is that the wood tends to cup or twist out of shape.

Dog Saves Feline Chum.

Dence, an Irish terrier, proved at a fire in the pet shop at 270 Livingston street, Brooklyn, that the term "cat and dog life" sometimes means the opposite of hate, combat and commotion. Dence had been living in amity with seven blooded cats in the shop for several weeks. When the fire started he saved himself, and then watched the firemen rescue the cats. Apparently he counted them, for when the men stopped rescue work after bringing out the sixth he dashed into the burning shop and came out carrying the seventh by the scruff of its neck. Dence had to open a cage to do it. When he released the cat on the sidewalk, the latter purred and rubbed against his legs, until the shop owner gathered up both animals and took them away.

Depressing Personality.

"There comes Blithersby."
"I see him. Let's avoid him."
"Why?"
"He's the worst crepe hanger I know. Every time he hears me start to talk about buying a new motor car or taking a little trip to Florida or Cuba, he wants to tell me how many babies die every day in Europe."
—Birmingham Age-Herald.

Boy Scouts' Equipment.

Chief Sea Scout James A. Wilder of Honolulu has aroused the Boy Scouts of America until 30 sea scout centers have already acquired training ships, 10 cities now have shipping boards, and 63 others are following suit. It is probable that training ships for this branch of scouting will soon be sailing the oceans and rivers of America.

BACK HURT ALL THE TIME

Mrs. Hill Says Lydia E. Pinkham's Vegetable Compound Removed The Cause.

Knoxville, Tenn.—"My back hurt me all the time, I was all run down, could not eat and my head bothered me, all caused by female trouble. I was three years with these troubles and doctors did me no good. Your medicine helped my sister so she advised me to take it. I took Lydia E. Pinkham's Vegetable Compound and the Liver Pills and used Lydia E. Pinkham's Sanative Wash and now I am well, can eat heartily and work. I give you my thanks for your great medicines. You may publish my letter and I will tell everyone what your medicines did for me."

—Mrs. PEARL HILL, 418 Jacksboro St., Knoxville, Tennessee.

Hundreds of such letters expressing gratitude for the good Lydia E. Pinkham's Vegetable Compound has accomplished are constantly being received, proving the reliability of this grand old remedy.

If you are ill do not drag along and continue to suffer day in and day out but at once take Lydia E. Pinkham's Vegetable Compound, a woman's remedy for woman's ills.

Petroleum's Discovery.
In 1859, on the 28th of August, petroleum was discovered at Watson's Flats, Pa., near the head of the Allegheny river. Edwin Drake bored the first oil well, and before the end of the year Drake, under the firm name of Drake & Bowditch, bored through the rock at Titusville to a depth of 70 feet and struck an oil well that yielded 1,000 gallons a day. This discovery started the enormous oil industry in northwestern Pennsylvania.

Krew-Pina Treatment for Lumbago

The Soreness Vanishes

YOU can laugh at Lumbago or sore, stiff back, for KREW-PINA will quickly banish the pain. One application before retiring does wonders by morning—pain all gone and you go happily to work.

Splendid also for Coughs, Croup, Colds, Tonsillitis, Burns, Bruises, Headache, and fifty other common ailments that beset the average family. A powerful healing element—as your druggists with full directions. 25c.

What about our Service?

SOME say "good," a few say "poor" and a large percentage say "well, we'd like to see it better, but probably you're doing the best you can under the circumstances."

What are the circumstances?

Just these!

To furnish good service we must have the right equipment and an effective operating force. Both cost money—much more than they used to! That money we get from telephone rates.

And what are these rates?

Just what they were before the war!

They are not sufficient to operate and maintain the plant effectively and provide for depreciation and replacements.

They afford no margin for future strengthening of the operating force. Our young women at the switchboards are intelligent and hardworking. We, at least, know that they're doing their very best.

To permit continued recognition of the good job they're doing, we must have adequate rates.

The service-user cannot ignore the obligations of the rate-payer!

Next Meeting Will Be Held In Charleroi on March 27th

TO BEAR NAME OF THE VALLEY

Last Saturday afternoon, a party of ladies, about fifty in number, representing every town in the valley, from Monongahela to California, assembled in the library of the California Normal for the purpose of organizing a chapter of the Daughters of the American Revolution.

Miss Etta Lilley, of California, called the meeting to order at 1:30 o'clock, and introduced Mrs. Anthony Wayne Cook, State Regent, who made a splendid address, explaining the aims and purposes of the organization, recounting the work done in the past, and urging greater activity in the future. She was followed by Mrs. Work, Regent of the Great Meadows Chapter, of Uniontown, after which Mrs. Cook organized the Monongahela Valley Chapter of the Daughters of the American Revolution, and appointed Miss Etta Lilley, of California, Regent, who, in turn appointed officers as follows: First vice-regent, Mrs. C. N. Savage, California; second vice-regent, Mrs. O. W. Sadler, Belle Vernon; third vice-regent, Mrs. W. H. Alexander, Monongahela, recording secretary, Miss Mary Masters, Coal Center; corresponding secretary, Miss Margaret Laird, Charleroi; registrar, Mrs. John B. Myers, California; chaplain, Mrs. William Neal, Donora; treasurer, Miss Elizabeth Morgan, California; historian, Miss A. K. Kingsley, Monessen.

The next meeting will be held March 27, in the Borough building, Charleroi.

WILL TEST THE FIRE ALARM SIGNAL

A representative of the Gamewell Fire Alarm system is in Charleroi today preparing to give the alarm whistle on the borough building a thorough test. This test will take place between 10 and 11 o'clock forenoon, and members of the local department have been notified to that effect, so that they will not report at the borough building when the alarm sounds. The alarm system has not been working in a satisfactory manner and the Gamewell people will try to put it in shape to give the service from which it was intended.

SPECIAL SERVICES

CONTINUE AT M. E.

Special meetings at the Methodist Episcopal church continue this week. This evening the pastor will speak on "Spiritual Famine." Prof Jennings will sing and assist in the service. All made welcome.

Majestic Theatre Today

Madlaine Travers in "What Would You Do?" Are you a woman? What would you do if your first husband whom you thought dead, suddenly returned, as from the grave, handsome and richer than ever? This question is equally interesting to husbands, real or potential.

Defines the Territory of The New Monongahela Division

The first order issued from the new headquarters of the Monongahela Division, Pennsylvania Railroad, located at Uniontown, bears date, of March 1, 1920, and specifies just what portion of the Pennsylvania is included within the new jurisdiction. It takes in all of the Southwest from Fairchance to Greensburg, and the Monongahela Division, including the Redstone, Ten Mile and M. & W., from Uniontown to Duquesne. North of mile post No. 11, near Duquesne and thence to Pittsburgh, is now included in the Pittsburgh Terminal Division. This portion of the old Monongahela Division will it is said, be used as a classification yard, for freight trains east and west, and will be used for making up trains for the Panhandle. Fr. Wayne and the main line of the Pennsylvania. Passenger trains of course on the local division will run through and over these tracks as usual. It is intimated that a new schedule will be announced on the local Division some time this month.

CAST COMPLETED FOR AMATEUR PLAY

The cast for "The Wedding Ring" to be given March 11 and 12 in the High School auditorium is completed. Mrs. Carr, the director, expresses herself as being pleased with the progress made. That "The Wedding Ring" will be the most beautiful and pleasing amateur production ever staged in Charleroi is the prediction of all who have been present at the practice sessions, which are being held each afternoon and evening. As the production will be given early in March the time for practice is short and it is necessary that every one be present for all rehearsals. One absence will seriously interfere with the work of the others. A committee will be sent out this week with tickets and a goodly amount is expected to be realized for the Near East Relief fund.

Thomas Harding
Thomas Harding, of Roscoe, died very suddenly at his home this morning, aged 73 years. Mr. Harding was in his usual health on Sunday. He had been employed for years as a mine foreman for the Pittsburgh Coal Company in its various mines in the vicinity of Roscoe. He is survived by two daughters, Mrs. Hannah Reilly of Charleroi, and Miss Mary at home, and one brother, James Harding of Saltsburg. Funeral Wednesday at 2 p. m., interment at Mt. Taber.

Mrs. Francis Duvall
Mrs. Francis Duvall died at her home, 336 Washington avenue, Saturday afternoon at 3:20 o'clock. Funeral services in charge of Rev. Greenlee will be held Tuesday afternoon at 2 o'clock, with interment at Howe cemetery. The deceased is survived by her husband, two daughters, Sarah and Jean; her father, Mr. John Nickson, of Long Branch, three sisters, Miss Ruth at home, Mrs. Winona Redd of Maple creek road and Mrs. Paul Gibson of Charleroi.

FORMER LOCAL TRACK STAR AGAIN A WINNER

James McQuaid, a former track star of Charleroi was appointed winner for Wooster college in the track meet with Western Reserve. Mac won second in the 40 yard dash and second in the 220 dash. In this event he was badly handicapped by the track. Reserve's track requires one more step in the boards to make the turn than is necessary on the Wooster track. Wooster won the meet 66 to 38.

CLERK AND REGISTER EXCHANGE OFFICES

The offices of the clerk of courts and the register of wills in the courthouse at Washington are being shifted each of these officials moving into the quarters vacated by the others. Now that the register of wills is also clerk of the orphans court, larger quarters are needed. In view of the fact that many of the papers and records which will be in his charge have always been kept in the office of the clerk of courts, it was deemed advisable for the register to move to the office occupied by the clerk of courts. This room is much larger than the office occupied by the register and will also give room for additional space when needed in adjoining rooms now occupied by the county commissioners.

CHARLEROI TEACHER MARRIED SATURDAY

Miss Zella Franks, teacher of shorthand in the commercial department of the Charleroi high school, was united in marriage, last Saturday afternoon, to H. C. TerBush. The ceremony was performed in Pittsburgh, Dr. G. W. TerBush, father of the groom, officiating. Miss Franks has been identified with the Charleroi school system for several years past and is highly respected by all with whom she has been associated. Mr. TerBush is chief accountant at the Pittsburgh Plate Glass and is well and favorably known. The newly wedded couple will continue to reside in Charleroi. Their many friends extend felicitations on the happy event.

Mrs. Allison Roy
Mrs. Belle Roy, wife of Allison Roy died at her home in Roscoe, Saturday morning last, aged 23 years. She is survived by her husband and two children. Funeral Tuesday afternoon at 2 o'clock, from her late home, with interment in Howe cemetery.

Mrs. Deitrich Martin
Mrs. Deitrich Martin, aged 68 years, died Sunday afternoon at 2:45 o'clock, at the home of her daughter, Mrs. Charles Brown, 531 Washington avenue. Funeral services will be held at 2:30 p. m. Wednesday afternoon, conducted by Rev. Bressler, interment in Monongahela cemetery.
